## ***President's Reflections:***

To our horseshoe family,

First of all, I thank you all for the support you have given me since “electing” me as your president. Don Davis did such a great job as our president for 10 years and Dennis Tutewiler, a true leader himself, also served us well as president. Don is and was a humble, approachable, humorous and effective leader. His extensive service to us all is so appreciated. But...remember who lives with him. Thank you Rhonda! A special thank you goes out to Phyllis and Jim Quist, Don and Rhonda Davis, Vic Magnus, Curtis Lee, and Jerry Conklin. These folks have really given me great advice and encouragement during this transition. Our entire horseshoe pitching family is truly a blessing to me and it is fair to say, we are a blessing to each other.

We also thank Vic Magnus, who served as our Regional Director for about 10 years. He is another tremendous, humble leader in our family who worked tirelessly behind the scenes serving us and is giving our new Regional Director, Curtis Lee, the support and encouragement he needs as Curt now serves us. Congratulations Curtis! Isn't this fun???

Our 2020 Winetrout tournaments in Seattle had very good attendance for the most part. These tournaments, as you know, were my first attempts as a tournament director...talk about a learning curve! If you attended any of these, thanks for coming out in the winter, for providing the delicious lunches, and for those who traveled long distances or over the mountain pass, a special applause goes out to you.

Sadly, we mourned the loss of more of our horseshoe family members since our State

Tournament last Fall. Our heartfelt thoughts and prayers go to those who lost loved ones. Now we face this awful corona virus, Covid 19. The impact on the people of our state, our country and the world is tragic. Please take every precaution you can to stay healthy. As of this writing Winetrout 6, the Tulip Open, the Seattle Open, and the Odessa Spring Fling have been cancelled. It is nearly impossible to pitch together with a 6 foot social distancing advisement. So we all hope and pray that this virus will subside, a cure will be found and a vaccine will be discovered soon.

Spring is here, thankfully, with much more daylight, blossoms brightening our days and warmer temperatures warming our bones. Keep throwing those shoes if you can safely do so using social distancing, of course. Keep smiling, and remember the lyrics, “I think to myself, what a wonderful world”. God Bless, Jon

### ***Note from Phyllis Quist***

The Bellingham H.S. Club gathered at the Quist home for their yearly meeting in February. Newly elected officers are President – Gary Shinpaugh and Duane Gates as our Ex. Bd. Rep.

At this time we are hoping we will be able to hold the Bellingham Intl. in Aug. Early in March Gene Kuiken had a slight stroke. He is recovering good and feeling like he wants to get out and start pitching again!

Here's hoping all are well and a shout out to clubs to let us all know what is happening in your area. Get an article to Chris for the Shoes News.

Thank you Chris for getting us going again.

## Horseshoe History

Actual shoes for horses and other beasts of burden began in ancient times. Although horseshoes did not often appear in ancient art, there are enough instances to beg the probability. For example a mosaic portraying the Battle of Issus dug up in Pompeii in the 1830s clearly shows a horseshoe on a horse<sup>1</sup>. Also [Catullus](#) refers to [a shoe of a mule](#) in his poetry and he lived during the time of Augustus.

Horseshoes were developed to harden and protect the hooves of horses for the rigorous jobs they had to perform. Interestingly enough, the first horseshoes were not nailed on, but held on in the same manner sandals were held onto the feet of humans. Even so, the Dark Ages saw much less use of horseshoes, and it does not appear that horses were generally shod until at least the 9th century. The practice did not become common in England until the invasion by the Normans in 1066 . (Though horseshoes were certainly used there in Roman times.)

Horseshoes: A History of the Game!

The game of horseshoes is thought to have descended from the ancient Greek sport of the discus throw. The story is that Greeks developed a sport where the discus was thrown at a stake. But many of the poorer people could not afford the discus so they used cast off horseshoes

instead. At the time, horseshoes were actually round, with a hole in the middle. This evolved into the game of quoits (which uses a 4 pound iron ring in a manner similar to horseshoes). Quoits then spawned the game of horseshoes.<sup>2</sup>

Horseshoes in the United States was probably brought over by the early English settlers. But modern horseshoes might well be called "muleshoes" because it was spread by Union soldiers during the American Civil War playing the game with the discarded shoes of mules. The first world championship of horseshoe pitching took place in 1910 in Bronson, Kansas. At this event ringers counted five points, leaners three, and close shoes one. The first organization of Horseshoe pitchers was also in Kansas in 1914, making that state the home of American Horseshoe pitching. Standards were set regulating the size and weight of horseshoes (2 pounds to 2 pounds and 2 ounces). The stake was then ordered to stick 8 inches out of the ground.

But it was not until 1920 that many of the more familiar rules were adopted such as [cancellation scoring](#). The stake was also raised to 10 inches (leaning slightly toward the opposite stake). It was also at this time that extra points awarded for leaners was abolished. It is interesting that even today (nearly 100 years later) there is controversy among new players regarding the value of a "leaner".

In the 1930s the stake was raised again to 15 inches. And the number of points for an official game went from 50 to 40 points. Today, the game is popular throughout the United States. It is estimated that more than 10 million people play horseshoes every year.
